

Mitra Zonata
Romantic nautical tour
~Together with distance~

A row of white sailboats with blue accents, docked in a harbor. The boats are of various sizes and are moored along a pier. The water is calm, and the sky is clear.

It is our pleasure to offer you a new tourist product, designed for those who love the sea, and seek their oasis of peace on the beautiful islands of the Zadar archipelago, which has the most indented coastline on the Adriatic, and whose natural beauty leaves you breathless. For boaters and everyone who just wants to become one and spend an unforgettable vacation in the company of their friends, family or business partners, we offer a unique, original and innovative product called "Mitra zonata – Together with distance".

To the sailboats owners and those who will rent a boat with a skipper at one of the Charter services, we offer an organized tour of the islands, an introduction to cultural and natural heritage, gastronomic delights and degustation of local products, accompanied by a professional guide, animator and musician, who will round off the joy of sailing with music. In this time of pandemic, this is a unique opportunity where visitors can enjoy seclusion and – at the same time – socializing, which everyone is missing (with adherence to prescribed preventive measures).

You are love with the sea and sailing? You have always wanted to experience something more and different while sailing? Want to feel the magic of socializing at sea, which for boaters represents an incredible experience and an adventure that will be treasured forever, you've come to the right place. For the first time on the Adriatic, we have designed just for you a nautical gathering, a nautical tourist tour that reveals more. We will take you to the islands and bays of the Zadar archipelago, introduce you to traditions and customs, local dishes, Croatian island products, natural and cultural heritage and provide entertainment, music, and socializing with a competitive spirit.

If you are setting sail for the first time or for the thousandth time, there is always some new undiscovered corner waiting for you. Croatia is a country with a thousand islands, 1246 to be exact. In the Zadar archipelago there is a necklace of 18 islands, 149 islets, 88 reefs and cliffs, with countless coves, bays and capes, forming the most indented part of the Adriatic Sea. Each island uncovers a unique beauty and tells its own story. The island of Silba reveals a story about Toretta, who testifies to the unhappy love of Captain Petar Marinić and his fiancée Antonija, while the island of Iž depicts the election of a new king of Iž every year. Veli Rat lighthouse on Dugi Otok gives account of 100,000 eggs built into the plaster, the island of Ugljan recounts its 300,000 olive trees, as well as the bay and Telašćica Nature Park portray its high cliffs.

A group of dolphins swimming in the ocean near a boat. The dolphins are seen from below, swimming towards the surface. The water is clear and blue. The boat's hull and some equipment are visible in the upper left corner.

We offer 6-day arrangements, departing from Zadar every Sunday morning, from June 20. to October 16. Book your place in this cheerful group on time.
